## **INTERIM OWNER NOTIFICATION**

## **NHTSA Recall 23E-048**

Dear Dealers and Distributors of United Pacific (part no.31645 & 31646) headlamp assemblies:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Eagle Eyes Traffic Industrial Co., Ltd ("EE") and United Pacific Industries, Inc ("UPI") have decided that a defect which relates to motor vehicle safety exists in certain United Pacific (part no.31645 & 31646) headlamp assemblies. Our records indicate that you have distributed or installed the identified headlamp.

### **Reason for Recall**

EE and UPI are recalling certain EE UPI aftermarket headlights with model numbers 31645 and 31646, sold as replacement headlights for Peterbilt 389 vehicles.

The headlights may not have the correct amount of light output, which can reduce visibility. As such, these headlights fail to comply with the requirements of Federal Motor Vehicle Safety Standard number 108, "Lamp, Reflective Devices, and Associated Equipment."

As a result, reduced visibility from insufficiently bright headlights can increase the risk of a crash.

### **What UPI, Inc. & EETI Co., LTD Will Do**

EE and UPI are currently awaiting parts to remedy the affected products. EE and UPI anticipate parts to be available for replacement headlamp assemblies by December of 2023.

Once parts are available, EE and UPI will send you a second letter providing instructions for you to inform your customers as to how to obtain the replacement headlamp assemblies.

### **What You Should Do**

Once you receive this letter, we kindly ask you to transmit a copy of this manufacturer's notification to known distributors and retail outlets along the distribution chain within five working days from its receipt.

Please be advised that it is a violation of Federal law for a dealer to deliver any further new or used United Pacific (part no.31645 & 31646) headlamp assemblies until the replacement parts are made available.
