# Recall Acknowledgement and Technical Summary

**This notice is sent to you in accordance with the requirements of the *Motor Vehicle Safety Act*. This notice is also sent in accordance with the requirements of the United States' *National Traffic and Motor Vehicle Safety Act*.**

## **THE PROBLEM**

Firefly Integrations is undertaking Recall 23E-071 due to the HC Relay card located in the electrical control module delivered to Renegade between April 17 and September 28. It was determined that in some cases the relays could become damaged and cause an electrical short circuit.

## **EVALUATION OF THE RISK TO THE VEHICLE AND OPERATOR(S) RELATED TO THE RECALL.**

There is a safety risk associated with an electrical short circuit caused by damaged relays which increases the risk of a fire and could result in property damage or personal injury.

## **WHAT UNITS ARE AFFECTED FOR RENEGDE?**

The following Renegade lines that received hardware between April 17 and September 28 are affected by this recall: **K09, K01, K15, K20, and K04.**

## **WHAT IS FIREFLY INTEGRATIONS GOING TO DO?**

Firefly Integrations is notifying Renegade RV, Dealers who have purchased affected coaches, and retail customers of the Recall and advising them how to rectify the issue.
