

# **SERVICE BULLETIN**

## **STOP SALE / STOP DELIVERY NOTICE**

GROUP: 2023MY CERTAIN S-SERIES MODELS

BULLETIN #: SB-23-012

ISSUED DATE: FEBRUARY 6, 2023

**SUBJECT VEHICLES:**

MODEL YEAR: 2023MY

MODELS: CERTAIN S-SERIES MODEL TRUCKS

**HINO TRUCKS IS ANNOUNCING EFFECTIVE IMMEDIATELY, A STOP SALE / STOP DELIVERY NOTICE FOR THE ABOVE AFFECTED VEHICLES. THE STOP SALE/ STOP DELIVERY NOTICE IS ISSUED DUE TO ANTI-LOCK BRAKE SYSTEM (ABS) RECALIBRATION THAT WILL BE REQUIRED PRIOR TO SALE OR DELIVERY.**

2023 model year Hino S5 Vehicles produced after 6/1/2022 with 200" or 212" Wheelbase Factory Modifications. When the subject vehicles were modified to extend the frame, the Anti-lock Brake System (ABS) module was not re-calibrated to account for the different inputs from the vehicle resulting from the stretched frame. Therefore, when driving in a curve, the Electronic Stability Control (ESC) system, working together with the ABS, may react prematurely or be delayed in reacting.

**DEALER ACTION:**

The campaign V2301 has been assigned. Once the work procedure is available and the subject vehicles have the ABS module re-calibrated, selling and delivery can resume.

**IMPORTANT: ALWAYS CONFIRM VEHICLE ELIGIBILITY PRIOR TO BEGINNING REPAIRS BY CHECKING THE VEHICLE IDENTIFICATION NUMBER (VIN) IN THE HINO WARRANTY SYSTEM.**

**FEDERAL LAW PROHIBITS THE SALE OR DELIVERY OF THE AFFECTED VEHICLES TO CUSTOMERS UNTIL UPDATES ARE COMPLETED.**

A subsequent recall notice will be issued for affected vehicles.
