***** Campaign Summary *****

Nissan is committed to the safety and security of our customers and their passengers. Nissan has notified the National Highway Traffic Safety Administration (NHTSA) and Transport Canada that it is recalling certain 2014-2020 Nissan Rogue and 2017-2022 Nissan Rogue Sport vehicles to address a potential key fob issue.

Certain 2014-2020 Rogue and 2017-2022 Rogue Sport vehicles are equipped with a jackknife key that may not hold the key blade in the extended "open" position. Over time the internal pivot of the jackknife key may weaken and the key could unlock and rotate downwards. If the vehicle is driven with the key in the collapsed position, contact with the key fob by the driver could inadvertently turn the vehicle off while driving, increasing the risk of a crash.

Nissan is currently developing a final remedy plan for this issue. In the interim, owners will be notified beginning **March 2023** and instructed to avoid attaching accessories to the key fob and to use the key in the non-folding orientation.

In the interim for vehicles in dealer inventory, once parts are available, the dealer will insert a set screw into the key slot so the key cannot be folded down.

***** What Dealers Should Do*****

1. Verify if vehicles are affected by this Voluntary Recall Campaign using Service Comm or DBS National Service History Campaign I.D. **R22C8**.
2. Dealers **must not sell, lease, trade, rent, or loan** any vehicles in dealer inventory affected by this recall campaign until after the vehicle has been repaired.

**** **Release Schedule** ****

Parts	<u>Once parts are available</u> , the dealer interim remedy requires one (1) set screw. Package quantity will be 100 parts per package for the set screw.
Repair	Nissan is currently developing a final remedy plan.
Owner Notification	Nissan will begin sending interim notifications to owners of all potentially affected vehicles beginning March 2023 , via U.S. Mail.

**** **Dealer Responsibility** ****

It is the dealer's responsibility to check Service Comm or DBS National Service History using the appropriate Campaign I.D. for the campaign status on each vehicle falling within the range of this voluntary safety recall campaign, which for any reason enters the service department. This includes vehicles purchased from private parties or presented by transient (tourist) owners and vehicles in dealer inventory. If a VIN subject to this recall campaign was part of a dealer trade, the letter associated with that VIN should be forwarded to the appropriate dealer for service completion.
