REF #: ICI23-018R
 Effective: 06/01/2023
 Release: 05/23/2023 (Revised: 08/14/2023)

SUBJECT: (Revised) Love's Travel Stops Authorized Campaign Program

Revisions are in blue font.

This letter is to inform you that, per the 05/24/2023 joint memo from DTNA and the Dealer Council, DTNA will now allow Love Service Locations to perform select Recall and Field Service Campaigns

Recall campaigns address urgent safety and emission compliance issues. DTNA complies with U.S. and Canadian federal regulations and adheres to all requirements for recall campaign documentation, repair completion, reporting to federal agencies, etc. By adding recall repairs to the Love Service Agreement, regulatory compliance by sponsoring locations and customers is also required.

With approval from sponsoring locations, select Love Service locations are authorized to perform specific Freightliner Campaign repairs. Love Service locations may only do this work with the agreement of their sponsoring locations.

Love sponsoring locations are responsible for the management of this program (i.e., determining whether customer facilities are suitable and identifying the specific, DTNA-approved campaigns that a Love Service location can perform).

The following Recall Campaigns are approved for Love Service Centers:

Campaign Number	Campaign Name	Start Date	Open Vehicle Population
FL756	Brake Light Pressure Switch	4/7/2018	104,095
FL791	Freightliner Steering Shafts	11/14/2018	5,149
