

MACK TRUCKS RECALL ALERT

Subject: Safety Recall SC0441, Meritor MX-810 Driven Steer Axle
Recall Number: SRA-M441
Date: March 8, 2023
Applicable Markets: U.S. Canada Export

Description

On certain vehicles, there exists the potential of under torque on fasteners on the axle assembly, specifically: Brake caliper to knuckle, steer arm to knuckle, lower kingpin to knuckle, tie-rod to knuckle. The failure of one of these joints could lead to loss of control of the vehicle, which could result in a crash.

There have been no accidents or injuries or field complaints or warranty claims related to this issue.

Meritor they will be sending their technicians to complete these and Mack Defense will be the one ensuring completion.

Model and Model Years Affected

- Certain 2023 Mack GR vehicles manufactured March 16, 2022 through October 25, 2022. All of these vehicles are Mack Defense.

Vehicle Quantities

- 17 vehicles (all US)

Dealer Responsibilities

- The National Traffic and Motor Vehicle Safety Act and Canadian Motor Vehicle Safety Act require dealers to ensure that all new and used vehicles are free of safety defects and comply with all relevant safety standards at the time of delivery to the consumer.
- Dealers should make their personnel aware of the safety recall. In the event that a dealer has a vehicle included in the safety recall in their inventory to be sold, the condition must be corrected before releasing it to a customer.

Notification Release Schedule

- Vehicle list will be posted on the Trucks Dealer Portal March 8, 2023.
- Owner notification letters will be released on or before April 28, 2023.
- Repair Instruction will be released once they are available.
