Re: **UPDATE-Stop Sale/Safety Recall: 17-20M Multi-Model Front Seat Belt Buckle**

Please be advised that as of today, May 30, 2025, repair procedures have been updated. Prior to this repair procedure update, all affected vehicles required inspection and repair of both the left and right seat belt buckle buttons. However, in the revised procedure, affected vehicles will require replacement of the driver's side seat belt buckle assembly and/or the front passenger's seat belt buckle assembly. **Refer to your eResponsibility report or perform an iN VIN status inquiry to determine which units in your inventory are affected as well as which side(s) requires the replacement.**
