Re: **UPDATE-Stop Sale/Safety Recall: 2019-20 RDX Front Seat Belt Buckle**

Please be advised that as of today, May 30, 2025, repair procedures have been updated. Prior to this repair procedure update, all affected vehicles required inspection and repair of both the left and right seat belt buckle buttons. However, in the revised procedure, affected vehicles will require replacement of the driver's side seat belt buckle assembly and/or the front passenger's seat belt buckle assembly. **Refer to your eResponsibility report or perform an iN VIN status inquiry to determine which units in your inventory are affected as well as which side(s) requires the replacement.**

Please refer to the following Service Bulletin for detailed information related to parts, repair, and warranty claim information for repairs on or after May 30, 2025:

- 25-019, *Safety Recall: 2019–20 RDX Front Passenger's Seat Belt Buckle Replacement*
- 25-020, *Safety Recall: 2019–20 RDX Driver's Seat Belt Buckle Replacement*

The following Service Bulletin has been expired on iN VIN inquiry. For repairs before or on May 29, 2025, you can still file a claim using warranty information in the Service Bulletin below:

- 23-005, *Safety Recall: 2019–20 RDX Front Seat Belt Buckle*

As always, perform an iN VIN status inquiry for all vehicles passing through your dealership to determine eligibility for any open campaigns.
