SUBJECT: Stop Delivery Order: Safety Recall FL968

SAFETY RECALL NOTICE On March 28, 2023, Daimler Truck North America (“DTNA”) filed a Defect Information Report (“DIR”) with the National Highway Traffic Safety Administration (“NHTSA”) informing the agency of our intent to conduct a voluntary safety recall.

It is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied. Some of the vehicles subject to this "Stop Delivery Order" may be in your new vehicle inventory. Until further instructions are available, new vehicles subject to this “Stop Delivery Order” must be held and not be delivered to customers.

Affected Vehicles:

Make	Model	Model Year	Manufacture Start Date	Manufacture End Date
Thomas Built Bus	Saf-T-Liner C2 Jouley	2021 - 2023	December 11, 2019	October 12, 2022

Problem:

On the affected vehicles, a defect in the automatic low voltage disconnect switch could potentially cause the switch to fail open, resulting in a loss of power without warning.

Solution:

DTNA is currently developing the repair solution.

Owner Notification Mailing Schedule:

Owner letters are expected to be mailed to affected Customers during the beginning of October.
