******* Campaign Summary *******

Nissan is committed to the safety and security of our clients and their passengers. Nissan has notified the National Highway Traffic Safety Administration (NHTSA) that it is recalling certain MY2023 Pathfinder and MY2023 Rogue vehicles to inspect the front driver's seat, and if necessary replace the seat cushion frame.

On certain Nissan Pathfinder and Rogue vehicles, due to a supplier weld quality concern that has since been corrected, the driver's seat frame rail welds may detach from the rear inboard seat bracket. As a result of this issue, the driver's seat may not be fully secured to the seat frame potentially increasing the risk of injury to the occupant in the event of a crash.

******* What Dealers Should Do*******

- Dealers **must not sell, lease, trade, rent or loan** any vehicles in dealer inventory subject to this recall campaign until after the vehicle has been remedied.
- Dealers should use **NTB23-033** to remedy any vehicles subject to this campaign.
- Once repaired, dealers should submit the claim using the claims coding provided, and release the vehicle.
