Subject: SAFETY RECALL - BENTLEY FLYING SPUR – INCORRECT  
RETENTION OF REAR ENTERTAINMENT SCREENS (RE23/06)

**SAFETY RECALL - BENTLEY FLYING SPUR – INCORRECT RETENTION OF REAR ENTERTAINMENT SCREENS (RE23/06)**

This bulletin is to initiate a recall campaign to check the orientation of the retention bracket used for securing the Bring Your Own Content (BYOC) rear entertainment screen on specific Flying Spur vehicles produced between November 4, 2020 and November 13, 2022. If rectification is required, it will take approximately one hour per seat to complete.

This bulletin will provide you with all of the information to explain why this recall is being initiated, the actions you are required to take and provide you with the appropriate administrative details.

During internal quality checks, Bentley has identified that the retention bracket holding the rear entertainment screens, located in the rear of the front seats, may be fitted in the incorrect orientation. This issue only affects Bring Your Own Content (BYOC) screens, which were an option in Flying Spur vehicles from 21MY onwards.

As a result of the bracket having been installed in the incorrect orientation, there is a risk that the retention of the Bring Your Own Content (BYOC) screens may be compromised if the vehicle is involved in a crash, potentially resulting in an occupant injury.

Customers will be notified week commencing June 5, 2023

**Every affected inventory vehicle must be REMEDIED BEFORE DELIVERY TO CONSUMERS.**

## **Questions and answers**

### **1) What is the specific issue with the affected vehicles?**

Bentley has discovered that the supplier of a specific number of rear entertainment screen retention brackets (Bring Your Own Content only), located in the rear of the front seats, may have fitted the bracket in the incorrect orientation.

### **2) What repercussions does the fault have?**

In the unlikely event that the bracket has been installed in the incorrect orientation, there is a risk that the retention of the specific rear entertainment BYOC screens may be compromised if the vehicle is involved in a crash, potentially resulting in an occupant injury.

### **3) Which vehicles are affected?**

This issue affects 21-23MY Flying Spur vehicles, up to the point where the issue was contained in Production (from VIN PC004756).

### **4) Are all models affected by the fault?**

No, this issue only affects a specific number of Flying Spur vehicles. The affected vehicles have been identified using Manufacturing records. Flying Spur vehicles not affected are fitted with a different type of rear screen entertainment or have the correct orientation of retention bracket confirmed, after process corrections were made at the supplier. Bentayga vehicles are not affected by this campaign, as a robust process has been in place at the supplier (different supplier to Flying Spur) since production of parts started.

### **5) Can customers continue to drive the cars?**

Yes, however, we encourage customers to arrange an appointment with their retailer as soon as possible. If required, the screens can be removed from the vehicle and stored somewhere safely until the recall action has been carried out.

### **6) What is the fix?**

Retailers will check the orientation of the retention bracket in both front seats where the screens are fitted. Any seats found to be fitted with the incorrect bracket orientation will be reworked by the retailer to replace the seat shoulder moulding, which contains the retention bracket assembly. Should rework be required, this will take approximately one hour per seat and will of course be carried out free of charge.

### **7) Do I have to make an appointment?**

Yes, that's important. Customers need to contact their retailer immediately.
