<p>This is to notify you of an Initial Recall Campaign to replace fuel delivery module on approximately 1,121 Sprinter vehicles from MY 2021. The recall campaign will be visible on the www.safercar.gov website and may generate questions from customers. All affected VINs will be flagged as "PENDING" in VMI and cannot be sold.</p>		
Background		
Issue	<p>Mercedes-Benz AG has determined that on certain Sprinter (907 platform) vehicles the fuel pump impeller might not meet specifications in regards to material characteristics. As a consequence, the impeller might deform. It might therefore come into contact with the fuel pump housing, leading to a mechanical resistance. In some instances, this could lead to a shutdown of the fuel pump. As a result, the vehicle could lose propulsion, and increase the risk of a crash or injury.</p>
