\*Only the Mazda3, 5-door HB and CX-3 vehicles listed both in eMDCS Warranty Inquiry AND in this range are affected.

**All vehicles with an OPEN Status will be tracked on the Missed Recall Report.**

**Parts Ordering:**

If needed, a back-up camera can be ordered from the Restricted Parts Ordering (RPO) screen in eMDCS. To complete an order, you will need to include the VIN number associated with the repair order, and the VIN must be OPEN for Recall 6023G. The part numbers for this recall repair can be found in the Repair Procedure documents.

Because of the limited number of VINs that will need a camera to complete the repair the back-up camera orders will flow through the RPO process with a low weekly order quantity. In the rare occurrence you need an additional part, please contact the Dealer Assistance Group with the VIN and RO number.

For additional parts related questions, please don't hesitate to [email the Dealer Assistance Group](#) or call 877-727-6626 – Option 2.

All U.S. Territories and vehicles from Mazda Canada Inc. are also affected by this recall and should be repaired if presented to your dealership under the guidelines presented in this dealer email. For next steps with these specific vehicles please follow Warranty Policy 3.30, which details what to do when a vehicle arrives at your dealership.

Customers also can apply for reimbursement if directly related to this recall by going to [www.mazdareimbursement.com](http://www.mazdareimbursement.com). A repair order showing parts replaced with labor and proof of payment is required.

Please make certain the appropriate personnel in your dealership are aware of these resources and are familiar with the details of this recall before responding to customer inquiries. We apologize for any inconvenience this recall may cause you and your customers. Your understanding and support in carrying out this campaign are greatly appreciated.

Sincerely,

**Mazda North American Operations**
