Grand Design RV, LLC. (Grand Design) is recalling certain 2021-2024 Momentum and Solitude fifth wheels, equipped with certain CURT 7000 and 8000 lb. axles. The U-bolts may have been improperly tightened, which can cause the axle to move out of position. An axle that moves out of position can cause a loss of vehicle control and increase the risk of a crash.

Owners of affected vehicles will be notified of this recall by mail. A copy of the Owner Notification Letter is attached as well as detailed repair instructions and a VIN list of your affected units. Also attached are the claim filing instructions associated with this recall action.
