INTERIM NOTICE

ATTENTION: ALL DEALER PRINCIPALS

This is an interim notice as we work on a remedy.

Kia America, Inc., pursuant to the National Traffic and Motor Vehicle Safety Act, is conducting a Safety Recall Campaign on all 2017-2022 MY Niro Hybrid (HEV) vehicles manufactured from November 1, 2016 through June 16, 2022 and all 2018-2022 MY Niro Plug-in Hybrid (PHEV) vehicles manufactured from September 26, 2017 through April 13, 2022.

The printed circuit board (PCB) in the Hydraulic Clutch Actuator (HCA) may become contaminated with fluid. A fluid-contaminated PCB may lead to an electrical short circuit, thereby increasing the risk of an engine compartment fire while driving. A fire increases the risk of injury.

When the remedy is available, dealers will inspect the HCA and replace, if necessary. Kia will also install a new HCA fuse with one of a different capacity to mitigate the potential risk of fire caused by an electrical short circuit. Customers may

experience illumination of the HEV warning light .

Your Service Manager was sent a copy of the interim owner notification letter and a Q&A guide for recall questions both of which describe the issue and information on how to access the list of affected vehicles. Kia will start mailing interim notices to the affected vehicle owners beginning on **September 29, 2023**.
