### Important Safety Recall Notice

This letter is to inform you of an important safety recall regarding a component installed in a conversion van your dealership purchased in February of 2020.

Cummins Inc. notified NHTSA that a safety defect exists in certain ONAN QG 2800i generators in which the fuel hose between the fuel filter and Injection Pump Module may not be properly secured, which can cause a gas leak, increasing the risk of a fire. Included in the recall are any generators manufactured between the dates of 3/03/2020 – 1/31/2023.

Explorer Van Company has identified your dealership as having purchased one conversion van with this added option that falls within the time frame of the recall.

Below you will find the information we have on file:

Dealership: \_\_\_\_\_

Make: \_\_\_\_\_

Model: \_\_\_\_\_

Invoice Date: \_\_\_\_\_

VIN: \_\_\_\_\_

We ask that you reach out to the customer who purchased the above \_\_\_\_\_ and inform them of the information we have provided.

As this is a manufacturer recall Explorer Van Company is unable to service the units involved.

The next step in this process will be for the individual who purchased this van to contact Customer Service at Cummins Inc. so an inspection can be scheduled with one of their service centers located in the surrounding area.

Contact information for Cummins Inc. is provided below. Please contact the manufacturer for any further questions regarding this matter.
