#### **DEALER HOLD IDH-23-02 HAS BEEN CONVERTED TO THIS SAFETY RECALL**

Indian Motorcycle has determined that some Model Year 2023 Challenger and Pursuit motorcycles have been built with a fuel line improperly assembled by the supplier. This may result in a vehicle stall during operation, which increases the risk of a crash and serious injury. The affected population is less than 30 vehicles.

To address this concern, Indian Motorcycle has released this Safety Recall with instructions to replace the fuel line on affected vehicles.
