

PENDING WINNEBAGO RECALL

NHTSA: 23V-627

Transport Canada: 2023-597

DATE: 11/21/2023

MODELS

AFFECTED: 2017 – 2024 Travato Motorhomes

New Safety Recall / Stop Sale Notification

PLEASE FORWARD THIS INFORMATION TO YOUR RV SALES AND SERVICE MANAGERS.

Reason for this Safety Recall

Winnebago Motorhomes has decided that a defect related to motor vehicle safety exists on certain 2017 – 2024 Travato Motorhomes. These motor homes were manufactured, September 06, 2016 through August 31, 2023.

The retractable awnings are extending unintentionally while the motorhome is in motion. An awning that extends unintentionally while the motorhome is in motion could present a road hazard, which can increase the risk of a crash.

Service Action

Winnebago will conduct a voluntary safety recall to address awning circuits and motor housing modifications, however the remedy is not currently available. Dealers will be notified through established communication methods once a remedy is available.

In the interim, do not function the awning. All other systems in the coach can be functionally demonstrated.

We sincerely apologize for this inconvenience and want to assure you we are working diligently to remedy this situation.

Notice

It is a violation of Federal Law for a dealer to sell or lease any new vehicles in dealer inventory covered by this notification until the vehicle has been repaired.

Thank you for your continued partnership!
