**** Campaign Summary ****

Nissan is committed to the safety and security of our customers and their passengers. Nissan has notified the National Highway Traffic Safety Administration (NHTSA) that it is issuing a Voluntary Safety Recall Campaign on certain MY2020-2021 Sentra and MY2019-2021 Altima Platinum trim level vehicles identified in Service Comm and DBS National Service History.

Over time, the rear view camera harness connector within the affected vehicles could become damaged from harness movement and vibration during vehicle operation. If the rear view camera connector terminals become damaged, the backup camera display image could become blurry, distorted, multi-colored or blank screen. If this condition occurs, it may not comply with FMVSS 111 s.5.5 Rear Visibility. If the rear view image is not available, rearward visibility may be reduced, potentially increasing the risk of a crash.

The dealer will inspect the function of the rear view camera. If the rear view camera harness is damaged, the dealer will replace the rear view camera and harness assembly. If not damaged, the dealer will apply protective tape and reroute the rearview camera harness to prevent the harness from being damaged.

**** What Dealers Should Do****

1. Verify if vehicles are affected by this Voluntary Recall using Service Comm or DBS National Service history – Open Campaign I.D. **R23C3**
2. Dealers **must not sell, lease, trade, rent or loan** any vehicles in dealer inventory subject to this recall campaign until after the vehicle has been remedied.
3. If a retailed vehicle affected by one of these Campaign ID's visits the dealer for service, the dealer should inform the customer about the recall and communicate that the software update is available.

- Once repaired, dealers should submit the claim using the claims coding provided, and release the vehicle.

This includes vehicles purchased from private parties or presented by transient (tourist) owners and vehicles in new vehicle inventory. If a VIN subject to this recall campaign was part of a dealer trade, the letter associated with that VIN should be forwarded to the appropriate dealer for service completion.
