## **IMPORTANT SAFETY RECALL**

### **NHTSA Recall – 23V-631**

### **Spartan Internal Recall No. 23017**

Dear Dealer or Service Manager:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Spartan Fire, LLC has decided that a defect which relates to motor vehicle safety exists in certain model year 2021-2024 Gladiator and Metro Star, 2022-2024 FC-94, 2022-2024 KME Panther, and 2023 KME Predator model emergency response chassis cabs.

On the affected vehicles, a defect in the inversion valve may cause the park brake engagement to be intermittently delayed. As such, these vehicles may fail to comply with the requirements of Federal Motor Vehicle Safety Standard (FMVSS) number 121, "Air Brake Systems".

If this condition exists, the park brake may not be applied within 3 seconds, resulting in inadvertent vehicle movement and possible injury. The issue would be detectable by not hearing the audible set.

Dealers will inspect the inversion valve to determine if affected and replace, if necessary.

We will contact all owners of these units that are affected by this recall. They will be directed to the appropriate dealer for repair. There is no cost to the vehicle owner for the recall remedy.

**IMPORTANT: Some vehicles may still be in dealer inventory. Federal law requires you to complete the recall remedy on such vehicles before delivery to the retail customer.**

### **SCHEDULING THE WORK:**
