Supplier

KTC

Description

Safety Recall 23KWJ: T280/T380/T480 Delayed Trailer Brake Release

Date

10/19/2023

What's New

Safety Recall: Interim Notification

Certain T280/T380/T480 chassis built with 2.1m Medium Duty End of Frame Trailer Connections may not meet the standard trailer brake release timing requirements by 0.5 seconds. A delay in the trailer brake release can create instability to the trailer and increase the risk of a crash.

Parts and repair procedures are not yet available. This bulletin will be updated when a repair path is determined.

Introduction

126 T280/T380/T480 chassis built with 2.1m Medium Duty End of Frame Trailer Connections may not meet trailer brake release timing requirement of FMVSS 121. Trailer brake release timing may exceed the standard by 0.5 seconds. A delay in the trailer brake release can create instability to the trailer and increase the risk of a crash. Truck and Trailer brake application timing is not affected, nor is brake performance affected.

Federal Law

It is a violation of Federal law for a dealer to sell or lease new vehicles covered by this recall until the defect or noncompliance has been corrected.
