

IMPORTANT SAFETY RECALL INFORMATION
Safety Recall Campaign 0184 Expansion
MY23 FLHXSE FLTRXSE Brake Line Clamp
MY24 FLHX FLTRX FLTRXSTSE Brake Line Clamp

To: Worldwide Dealers

Roles:

Dealer Operator, General Manager, All P&A Roles, All Service Roles, Vehicle Sales Manager

December 03, 2024

Dear Dealer:

NOTE: THE POPULATION OF MOTORCYCLES INCLUDED IN RECALL 0184 HAS EXPANDED. Additional vehicles may have been built with the subject clamp after the original clean date. The recall service now includes a step to inspect for the clamp and, if needed, replacement with the recall kit. Not all motorcycles in the expanded population will need the recall kit

Harley-Davidson has learned that on certain early production 2023 and 2024 Touring model motorcycles (see table below) a lower frame rail clamp may not adequately retain the rear brake line (P/N 41800890), which may allow the line to contact the exhaust. Contact between the brake line and the exhaust could, over time, lead to a hole in the brake line and a loss of rear brake fluid. If brake fluid loss remains undetected, rear braking may be compromised, increasing the risk of a crash.

We have voluntarily declared that this condition constitutes a safety defect to allow us to formally recall (Campaign 0184) all affected motorcycles in the expanded population. The remedy is to first confirm that the motorcycles are covered by this recall. If covered, inspect and perform (as needed) the recommended recall update per Service Bulletin M1610A (the "Bulletin"). As part of Campaign 0184, any affected brake lines (P/N 41800890) in your service parts inventory must also be remedied. The bulletin outlines the inspection and repair procedures as well as credit procedures for the recall update and additional relevant information.

The recall kit (part number 91500116) will be used for Recall 0184. Recall kits are available now.

In the interest of our customers' safety, and as required by federal law, you may sell but **not deliver** any affected motorcycles until the recall remedy is complete. **Please refer to *H-Dnet / My Toolbox / Warranty Campaign Center*. Select "Safety Campaign Open VIN list," then select "0184" Campaigns to view the VIN list.**

In accordance with federal regulations administered by the National Highway Traffic Safety Administration (NHTSA) and other appropriate market-specific government agencies, Harley-Davidson or authorized Harley-Davidson dealers will provide notice to all owners of record of affected products with direction to arrange for the recall service.

If you have any questions related to this recall, you can contact us at:

- U.S. dealers: Call 800-664-7762 and select the appropriate prompts
- International dealers: Contact your regional office

We take pride in the quality standards and controls we employ in our drive to lead the industry and deliver the world's most desirable motorcycles. Thank you for your cooperation.

Sincerely,

Harley-Davidson Motor Company, Inc.
Recall 0184

Recall 0184 Model Year List (production date range: April 11, 2023 to March 13, 2024)

Year	Model	Market
2023	FLHXSE	Worldwide
2023	FLTRXSE	Worldwide
2024	FLHX	Worldwide
2024	FLTRX	Worldwide
2024	FLTRXSTSE	Worldwide

Important Note: Vehicles added in the expanded population will show as having Recall 9184 being open. This is the same recall as 0184 with the 9184 indicating this Vehicle Identification Number (VIN) was added at a later time as part of the expansion. This information on H-D Net for Vehicle Information and Warranty Campaign Center will show 9184 for the vehicles in the expanded population.

Key Dates:

- Between December 2 and December 6, 2024 – Updated Dealer Communication and Service Bulletin released.
- Between December 4 and December 11, 2024 – Additional Owner Letters mailed.
- Recall kits are available now.
