

Xos Recall REC 003-23 | NHTSA Recall 23V760 | Electronic Parking Brake May Fail

Tue, Nov 21, 2023 at 1:29 PM

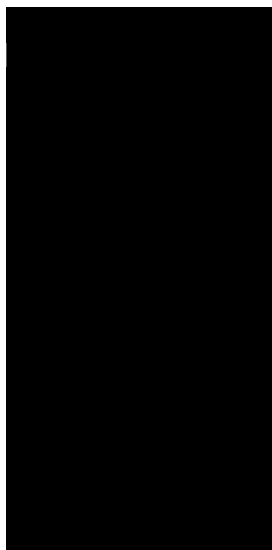

To: [Redacted]
Cc: [Redacted]

Good afternoon [Redacted],

Xos is recalling certain 2021-2022 SV05 and 2021 SA01 vehicles. The bolts and brackets connecting the hardware to the electronic parking brake system may come loose, causing the parking brake to fail. Electronic parking brake failure can result in a rollaway if the vehicle is not in park with the manual park brake engaged, increasing the risk of a crash.

Xos and Xos authorized dealers will replace the affected hardware and update the vehicle software, free of charge. Owner notification letters are expected to be mailed December 11, 2023.

This recall applies to the following VINs in your inventory:

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect.
