

I-23-07 Stop Sale DEX Alert

DEX Alert

Group: Alerts / Recall

Start Date: 12/11/2023

Removal Date: Date of Safety Recall repair release

Title: Stop Sale I-23-07 Released

Alert Text:

Indian Motorcycle has determined that some Model Year 2023-2024 Chieftain, Roadmaster, and Springfield motorcycles may have been built with an improperly routed crankshaft position sensor. This may cause the crankshaft position sensor to contact the front head pipe and result in a sensor failure and vehicle stall during operation, which increases the risk of a crash and serious injury.

Indian Motorcycle is currently evaluating a repair procedure for this concern and will provide an update to dealers in the coming weeks.
