Campaign No. :	Campaign Desc. :	Replace Fuel Delivery Module SUPPLEMENT (23V444)
2023120011	PD2GKRAPUM	
<p>This is to notify you of an Pending Recall Campaign to replace fuel delivery module on approximately 13,726 Metris vehicles ranging from MY 2022-2023. The recall campaign will be visible on the www.safercar.gov website and may generate questions from customers. All affected VINs will be flagged as "PENDING" in VMI and cannot be sold.</p>		
Background		
Issue	Mercedes-Benz AG has determined that on certain Metris (447 platform) vehicles, the fuel pump impeller might not meet specifications in regards to material characteristics. As a consequence, the impeller might deform. It might therefore come into contact with the fuel pump housing, leading to a mechanical resistance. In some instances, this could lead to a shutdown of the fuel pump. As a result, the vehicle could lose propulsion, and increase the risk of a crash or injury.	
What We're Doing	MBUSA is conducting a voluntary recall. A Mercedes-Benz dealer will replace the fuel delivery module on the affected vehicles.	
Parts	The part are not yet available.	
Vehicles Affected		
Vehicle Model Year(s)	2022-2023	
Vehicle Model	Metris	
Vehicle Populations		
Population	13,726	
Dealer Inventory	95
