Re: Rearview mirrors lenses may dislodge - Decreased visibility

Dear BRP Customer,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. BRP has decided that a defect related to motor vehicle safety exists in the following vehicles. As a result, BRP is conducting a safety recall.

Our records show that you own a potentially affected vehicle.

What is the potential problem?

The rearview mirror lenses may dislodge from the housing. This can result in an increased risk of a crash due to the decreased visibility for the driver.

Which models are involved?

All Model Year 2022 and specific Model Year 2023 Can-Am® Spyder F3 and F3-S vehicles.

What should you do?

- Contact immediately your authorized BRP Can-Am dealer and schedule an appointment to have the safety recall performed on your vehicle.
- The repair for Model Year 2023 is to inspect the mirror housing molding batch date and, if needed, to replace one or both of the mirror housing assemblies.
- For Model Year 2022, the repair is to replace both mirror housing assemblies.
- The procedure should take less than an hour.
- BRP will repair your vehicle at no cost.
- If you need to ride your vehicle before the repair, please proceed with the following steps before the ride:
 - Move each of the mirror lenses in the 4 axes until the end of the travel (left, right, up and down).
 - Adjust your mirrors
 - Do not ride the vehicle, if a mirror lens has dislodged.

Ski-Doo
Lynx
Sea-Doo
Can-Am
Rotax
Alumacraft
Manitou
Quintrex
