**Subaru Safety Recall WRD-23**  
**NHTSA ID 23V-080**  
**May 2023**

**Dear Subaru Owner:**

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Subaru of America, Inc. (Subaru) has decided that a defect which relates to motor vehicle safety exists in certain 2019-2022 model year Crosstrek Hybrid vehicles.

You previously received a letter informing you of this safety recall, stating that the remedy was not yet available.

*This letter is to inform you that the remedy is now available.*

**DESCRIPTION OF THE DEFECT AND SAFETY RISK**

The harness terminal that supplies low-voltage power from the converter to the 12V battery may corrode, and over time, could cause the terminal to break. If the terminal breaks, the 12V battery may not recharge as a result of this condition.

If the harness terminal breaks and the 12V battery is unable to recharge, the vehicle may experience a loss of motive power, increasing the risk of a crash.

**WHAT SUBARU WILL DO**

Subaru will replace the converter terminal mounting bracket with a new bracket with improved isolation at no cost to you. If there is no corrosion found on the terminals of the 12V output harness, a protective rubber cap will be installed on the terminals. If corrosion is found on the terminals, Subaru will replace the 12V output harness, including the terminals, with a new one at no cost to you.

**WHAT YOU SHOULD DO**

Please contact your Subaru retailer (dealer) immediately for an appointment to have this repair performed, at no cost to you.

**HOW LONG WILL THE REPAIR TAKE?**

The time required for this repair will vary depending on the service required. The repair time to replace the converter terminal mounting bracket is approximately three and a half hours; if corrosion is found on the terminals, the repair will require an additional hour to replace the 12V output harness, including the terminals.

Your retailer can provide you with a better estimate of the overall time for this service visit, as it may be necessary to leave your vehicle for a longer period of time on the day of your scheduled appointment to allow your Subaru retailer flexibility in scheduling.

**OWNER INFORMATION**

Government regulations require that recall notifications be sent to the last known owner of record. That information is based primarily on state registration and title data. If you are a lessor of this vehicle, federal regulations require you to forward this notice to your lessee within ten days.

If you have moved or sold your vehicle, please go to <https://www.subaru.com/support/customer-support.html> to send us your information.

**IF YOU HAVE PREVIOUSLY PAID FOR A REPAIR**

If you have already paid for repairs associated with this condition, you may be eligible for reimbursement. Reimbursement consideration will be based on the amount an authorized Subaru retailer in your area would charge for the same repair.

Please send the original service repair order, which has the name of the repair facility, date of repair, mileage at the time of repair, complete 17-digit vehicle identification number (VIN), and your name, with correct mailing address and telephone number to the address listed below:

**Subaru of America, Inc.  
Customer Advocacy Department, Attention: WRD-23 Recall  
P.O. Box 9103, Camden, NJ 08101-9877**

Please send original receipts only and retain a photocopy for your records. Please be assured that we will attempt to process your reimbursement request as quickly as possible, but it may take up to 60 days for this process to be completed.
