NHTSA Recall No: 23V-085

Dear Tesla Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Tesla, Inc. has decided that a defect, which relates to motor vehicle safety exists in certain Model Year 2016-2023 Model S, Model X, 2017-2023 Model 3, and 2020-2023 Model Y vehicles. Our records show that you are the owner of a vehicle affected by this action.

**REASON FOR THIS RECALL**

FSD Beta is an SAE Level 2 driver support feature that can provide steering and braking/acceleration support to the driver under certain operating limitations. When the feature is engaged, it could potentially infringe upon local traffic laws or customs while executing certain driving maneuvers in specific conditions, which could increase the risk of a collision if the driver does not intervene.

**WHAT TESLA WILL DO**

At no charge to you, Tesla will deploy an over-the-air ("OTA") firmware update to affected vehicles that will improve how FSD Beta negotiates certain driving maneuvers in specific conditions.

**WHAT YOU SHOULD DO**
