Get access to recall notifications, locate your nearest dealer, and more through this website or Mopar Owner's Companion App. You will be asked to provide your Vehicle Identification Number (VIN) to protect and verify your identity. The last eight characters of your VIN are provided above.

DEALERSHIP INSTRUCTIONS

Please reference Safety Recall 19A.

IMPORTANT SAFETY RECALL

Clutch

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA US LLC has decided that a defect, which relates to motor vehicle safety, exists in certain [2018 through 2023 Model Year (JL) Jeep® Wrangler and 2020 through 2023 Model Year (JT) Jeep® Gladiator] vehicles equipped with a manual transmission.

It is extremely important to take steps now to repair your vehicle to ensure the safety of you and your passengers.

WHY DOES MY VEHICLE NEED REPAIRS?

The manual transmission clutch pressure plate on your vehicle ^[1] may, in some circumstances, become overheated through friction, which may lead the pressure plate to rapidly fracture. When a pressure plate fractures, it may result in cracks or holes in the transmission bellhousing, allowing heated debris to be expelled from the transmission bellhousing. In some circumstances, the operator may smell a clutch odor and or clutch slippage prior to the failure and may receive cluster messaging. **Heated debris expelled from the transmission bellhousing may come in contact with an ignition source in the vehicle or surrounding area, potentially leading to a fire. A fire can result in increased risk of occupant injury and injury to persons outside the vehicle.**

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

FCA US will repair your vehicle ^[2] free of charge (parts and labor). To do this, your dealer will replace the clutch assembly and update software to provide escalating visual and audible warnings to the operator, ultimately resulting in the potential reduction of engine torque capability when clutch assembly temperatures rise to a level that may damage the inner pressure plate. The estimated repair time is six hours. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience. Please bring this letter with you to your dealership.

**TO SCHEDULE YOUR FREE REPAIR,
CALL YOUR CHRYSLER, DODGE, JEEP OR RAM DEALER TODAY**

WHAT IF I ALREADY PAID TO HAVE THIS REPAIR COMPLETED?

If you have already experienced this specific condition and have paid to have it repaired, you may visit www.fcarecallreimbursement.com to submit your reimbursement request online. ^[3] Once we receive and verify the required documents, reimbursement will be sent to you within 60 days. If you have had previous repairs performed and/or already received reimbursement, you may still need to have the recall repair performed.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.
