

IMPORTANT SAFETY RECALL

OWNER NOTIFICATION NOTIFICACIÓN PROPIETARIO

NHTSA RECALL 23V-296

Dear Nissan LEAF Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Nissan has decided that certain 2013 Model Year Nissan LEAF vehicles fail to conform to Federal Motor Vehicle Safety Standard (FMVSS) number 103 "Windshield defrosting and defogging systems." Our records indicate that you own or lease the Nissan vehicle subject to this recall as identified by the VIN on the inside of this notice.

Reason for Recall

Motivo del Retiro

Following the Owner's Manual instructions for defroster operation may result in reduced defroster performance under specific conditions. More specifically, in very cold temperatures (below 23° F/-5° C), maximum fan speed can result in the heater entering failsafe mode, which can limit defroster output. This reduced defroster performance can limit visibility out of the windshield, which does not meet the requirements of S4.3 of Federal Motor Vehicle Safety Standard (FMVSS) No. 103; Windshield defrosting and defogging systems. The loss of forward visibility may increase the risk of a crash.

What Nissan Will Do

Qué Hará Nissan

Provided with this notification is an addendum to the Owner's Manual that contains updated instructions on how to operate the defroster under the specific cold weather conditions.

What You Should Do

Qué Debes Hacer

Please attach the addendum, included with this notice, to your vehicle Owner's Manual.

Adjunte el anexo, incluido con este aviso, al Manual del propietario de su vehículo.
