

## **IMPORTANT SAFETY RECALL**

**This notice applies to your vehicle(s), see enclosed VIN list.**

**June 2023**

**FL975A**

**NHTSA #23V-348**

### **Subject: Turn Signal Indicator**

This notice is sent to you in accordance with the requirements of the *National Traffic and Motor Vehicle Safety Act*.

Daimler Truck North America LLC (DTNA), on behalf of its wholly owned subsidiary, Western Star Truck Sales, Inc., has decided that certain model year 2023 Western Star 57X vehicles fail to conform to the Federal Motor Vehicle Safety Standard No. 108 Lamp, Reflective Devices and Associated Equipment.

On the affected vehicles, the turn signal indicator on the instrument cluster may flash at a faster rate than the exterior turn signal lamps. FMVSS 108 requires the turn signal pilot indicator to have one or more lights flashing at the same frequency as the exterior turn signal lamps. This may result in the driver not noticing a change of state when a bulb is out, and thus driving with a nonfunctioning exterior turn signal, increasing the risk of a crash.

A Daimler Truck North America authorized service facility will modify the turn signal indicator parameter to comply with FMVSS 108. The Recall will take approximately one half hour and will be **performed free of charge**.

Please contact an authorized Daimler Truck North America dealer to arrange to have the Recall performed. To locate an authorized dealer, search online at <https://northamerica.daimlertruck.com/contact-us>. Scroll down to "Locate a Dealer" and select the appropriate brand. You may also confirm your vehicle's involvement in this recall at the following URL: <https://dtna-dlrinfo.prd.freightliner.com:48518/VinLookup/vin-module/getVinLookupPage>.
