Dear Mercedes-Benz Metris Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Mercedes-Benz AG ("MBAG"), the manufacturer of Metris vans, has decided that a defect which relates to motor vehicle safety exists in certain Model Year ("MY") 2021-2022 Mercedes-Benz Metris vehicles. **Our records indicate that your vehicle is included in the affected population of vehicles.**

### What is the issue?

On certain Metris vehicles, the fuel pump impeller might not meet specifications in regards to material characteristics. As a consequence, the impeller might deform and come into contact with the fuel pump housing, leading to a mechanical resistance. This could lead to a shutdown of the fuel pump and a loss of propulsion, which could increase the risk of a crash or injury.

### What will your Mercedes-Benz Dealer do?

An authorized Mercedes-Benz dealer will check the fuel delivery module on the affected vehicles and replace it, if necessary.

**This could take approximately 2 hours.** This service will be provided **free of charge**. You may be asked for your 17-digit Vehicle Identification Number (VIN) which for your convenience is located above your name at the top of this letter.

### Steps to take.
