Motor Vehicle Recall Notification – NHSTA Recall Campaign No. 23V-469, Newmar Campaign No. 604 RSB

Dear Valued Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

REASON FOR THIS RECALL

Newmar Corporation has decided that certain 2019-2023 Bay Star Class A Motorhomes, 2020-2023 Bay Star Sport Class A Motorhomes, and 2022-2023 Super Star Class C Motorhomes fail to conform to Federal Motor Vehicle Safety Standard No. 207, "Seating Systems," and 210 "Seat Belt Assembly Anchorages." Newmar Corporation identified a seatbelt mounting bracket that was being modified on certain Newmar models. The modified bracket was tested and found to not be in compliance with FMVSS 207/210.

These motorhomes require immediate service. Continued use poses a potential safety hazard.

The Safety Risk

Modified seatbelt mounting brackets in the dinette can fail to properly restrain an occupant in a crash, increasing the risk of injury. Newmar recommends not to use the dinette seats during transit until the recall repairs are completed.

WHAT WE WILL DO

Newmar Corp. will provide owners of all affected motorhomes a remedy for the potential defect at no charge for parts or labor. Newmar Corp. will install a new seatbelt mounting bracket along with additional fasteners to bring the dinette seatbelt into compliance with FMVSS 207/210 requirements. This repair is expected to take approximately .75 hour for inspection and replacement of the bracket and fasteners. However, due to some service scheduling times, the service center may need your vehicle for a longer period.
