Safety Recall 6023G - NHTSA Campaign Number 23V-487

August 2024

This notice applies to your vehicle: VIN _____

Dear Mazda Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Mazda Motor Corporation has decided that a defect which relates to motor vehicle safety exists in certain 2014-2018MY Mazda3 5-door hatchback and 2016-2021MY Mazda CX-3 vehicles. If you receive this notice, your vehicle is included in this Safety Recall. You were sent a notice in September 2023 that parts were not available. We are pleased to inform you that parts are now available for repair.

What is the problem?

The rearview camera wiring harness may become damaged due to improper design of the harness fastener. As a result, the rearview camera may display a distorted or flickering image. A distorted or flickering rearview camera image while reversing can reduce the driver's rear view, increasing the risk of a crash.

What will Mazda do?

Protect What Is Important To You

Your Mazda dealer will inspect your vehicle and replace the rearview camera, as necessary. Your Mazda dealer will also install a wiring harness fastening seal. The inspection and repair will be performed free of charge and at no cost to you.

How long will it take?

It will take approximately one hour to complete the inspection and repair; however, your Mazda dealer may need your vehicle for a longer period of time. Mazda will provide alternate transportation, if needed, when your vehicle is at an authorized Mazda dealership for a recall repair. Please schedule an appointment with an authorized Mazda dealer so they can discuss and accommodate your needs.

What should you do?

Mazda is concerned about your safety, and we encourage you to contact any authorized Mazda dealer to schedule an appointment to have your Mazda vehicle inspected and repaired as soon as possible. You do not need to bring this notice to the dealer, but it may assist in the check-in process.
