Why is your vehicle being recalled?

General Motors has decided that a defect which relates to motor vehicle safety may exist in certain 2024 model year Chevrolet Silverado 2500/3500 and 2024 model year GMC Sierra 2500/3500 vehicles. In these vehicles, the steering gear shaft may contain a supplier manufacturing defect that may result in a fracture of the shaft that attaches to the steering (pitman) arm. If the steering gear shaft fractures and the steering arm becomes disconnected, the driver will be unable to steer the vehicle, increasing the risk of a crash.

What will we do?

Your GM dealer will inspect the steering gear and replace if necessary. This service will be performed for you at **no charge**. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual inspection and service correction time of approximately 3 hours.

What should you do?

You should contact your GM dealer to arrange a service appointment as soon as possible.

Do you have questions?

If you have any questions or concerns that your dealer is unable to resolve, please contact the appropriate Customer Assistance Center at the number listed below.
