This notice applies to your Genesis vehicle, VIN: XXXXXXXXXXXXXXXXXXXX

Dear <FirstName LastName,>

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Genesis has decided that **certain 2023 model year GV60 vehicles** fail to conform to Federal Motor Vehicle Safety Standards Nos. 208, "Occupant Crash Protection," and 209, "Seat Belt Assemblies." Genesis is initiating a safety recall to repair the front passenger-side seatbelt in these vehicles in the U.S. Your vehicle, with the VIN shown above, is among the impacted vehicles.

You have received this notice because our records, which are based primarily on state registration and title data, indicate that you are the current owner.

What is the problem?

The Automatic Locking Retractor ("ALR") of the front passenger-side seat belts in the subject vehicles can remain locked after initial engagement and full retraction of the seat belt webbing, preventing seat belt extension and fastening. An inability to fasten the seat belt in an occupied seat increases the risk of injury in a crash.

What will Genesis do?

Your Genesis retailer will inspect and replace the front passenger-side seat belt, if necessary. This procedure will be performed at **NO CHARGE** to you.

What should you do?

Please contact your nearest Genesis retailer to schedule the recall repair as soon as possible. The actual time required to perform the repair is less than one hour; however, your vehicle may be needed longer. To locate your nearest Genesis retailer, please visit:

www.genesis.com/us/en/retailer-locator

We recommend scheduling a service appointment to minimize inconvenience. You may also arrange in advance for a Service Courtesy vehicle using Service Valet should you require alternate transportation during the service period.
