

IMPORTANT SAFETY RECALL

THIS NOTICE APPLIES TO YOUR VEHICLE – SEE VIN IN APPENDIX A
NHTSA RECALL NO. 23V607

Mr. Customer
Transit Bus Agency
260 Banker road
Plattsburgh, NY, USA 12901

November 8th, 2023

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Nova Bus (US) Inc. has decided that a defect which relates to motor vehicle safety exists in certain Nova Bus models LFS and LFS Artic and Model Years 2017 to 2023 manufactured from August 2017 to May 2023 equipped with certain radiator fans fuse holder configuration.

Certain affected vehicles may have road debris that could build up on the fuse holder for the electric cooling fans. If this happens, the fuse holder could short circuit and overheat. An overheated fuse holder could create the risk of a fire. During pre-trip inspection and scheduled preventive maintenance, a thermal event in development may be detected by looking at the fuse holder plastic cap for heat damages. Nova Bus recommends an inspection for debris accumulation in the fuse holder area and cleaning as required. Also, while the vehicle is parked, the manual power disconnect switch can be turned off to de-energized the radiator fan electrical circuit. Nova Bus recommends that you should inspect the fuse holder for heat damage (melting) before driving and to shut off the manual power disconnect switch when the vehicle is parked.

The service document CR5445 explaining the measures to be taken to remedy the affected vehicles will be published on Nova Bus web site <https://us.novabus.com/customer-portal/>. The vehicles can be remedied starting from November 23th 2023. The remedy, clean and inspect the fuse holder and if required, replace the fuse holder, should take approximately 60 minutes to complete. The necessary replacement parts will be available via the Nova Bus Parts distribution network. Nova Bus (US) Inc. will covered the parts and labour costs of the repair according to the warranty claim policies in effect. Federal law requires that you forward a copy of this safety recall notice to the lessee within 10 days. If you no longer own this vehicle, or it has been removed from operation permanently, please inform the undersigned.

You may be eligible to receive reimbursement for the cost of obtaining a pre-notification remedy of a problem associated with this Safety-Related Defect. Please submit copies of all documentation supporting your claim according to the requirements specified in the "General Plan for Reimbursement of Pre-notification Remedies" provided in this notification in Appendix B.
