This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Storyteller Overland, LLC has decided that certain 2022-2023 Storyteller Overland MODE LT's fail to conform to Federal Motor Vehicle Safety Standard No. 110 "Tire Selection and Rims".

We apologize for any inconvenience and want to assure you that, with your assistance, we will correct this. Our commitment, along with your dealers, is to provide you with the highest level of customer service.

What is the issue? Storyteller Overland is recalling certain 2022-2023 Storyteller Overland MODE LT motorhomes built on the Ford Transit chassis. The tire and loading information label may indicate an incorrect tire size and pressure. As such, these vehicles fail to comply with the requirements of Federal Motor Vehicle Safety Standard number 110, "Tire Selection and Rims."

What is the risk? Incorrect tire and loading information labels can allow an incorrectly sized tire to be installed or result in improperly inflated tires, increasing the risk of a crash.

What will Storyteller Overland and your dealer do? Storyteller Overland will mail corrected labels free of charge to you. If you do not feel comfortable replacing the labels, Storyteller Overland authorized dealers will replace the tire and loading information labels. There will be no charge to the customer for this label replacement.

How long will it take? The time needed to complete this recall will be approximately 5 min to complete.

What should you do? Upon receipt of the corrected labels, please replace the labels on your vehicle pursuant to the enclosed instructions and notify Storyteller's Customer Service Department at warranty@storytelleroverland.com.
