Notice of Defect R2023-03-008 – Anti-Lock Braking System Connections

This notice is sent to you in accordance with the *National Traffic and Motor Vehicle Safety Act*.

Lion Electric has decided that a defect which relates to motor vehicle safety exists in certain 2024-2025 LionC.

Description of the vehicle(s) affected by the defect

| | |
|---------------------|-----------|
| Make | Lion |
| Model | Lion C |
| Model year | 2024-2025 |
| NHTSA Recall Number | 23V-710 |

Description of the defect

The ABS pneumatic valve connections and rear wheel speed sensors may have been reversed during vehicle assembly.

Risk and consequence assessment

Reverse connections of pneumatic valves and rear wheel speed sensors can make the vehicle unstable, increase air consumption and lead to one of the rear wheels locking up when the ABS is activated. These effects can be combined and occur at the same time. The combination of these effects would increase the risk of crash.

Corrective measures and precautions

The remedy is available immediately. Please contact Lion to book an appointment to perform the repair, which will be carried out by Lion's technicians, at Lion's expense.

Lion will dispatch a team of technicians to correct the anti-lock braking system connections. Lion estimates it will take approximately 1 hour to complete the repair.

In the meantime, if any anomalies are detected, please contact Lion at the number indicated below. As a precautionary measure, please drive more precociously (keeping a greater distance from other road users and using the brakes as progressively as possible) when the road conditions are wet or icy.

SAFETY RECALL

Contact

For any questions, do not hesitate to contact the service department at 1-855-546-6706 ext: 229.

If you have already paid to have your vehicle repaired for this defect, you may be eligible for reimbursement of the charges you paid for the repair or replacement, as applicable. To learn more about what you need to do to obtain reimbursement, contact Lion's customer support at the number indicated above.

If you are no longer the owner of the vehicle, please contact Lion to provide the information about the new owner. Lion will then contact the new owner.

If you are the current owner and are leasing the vehicle, please forward a copy of this notice to the lessee within 10 business days of the date of receipt of this notice to comply with U.S. federal regulations.

After contacting Lion's Customer Service Department, if you still are not able to have the safety defect remedied without charge and within a reasonable time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Ave., SE., Washington, DC 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

Our priority is to provide you with a product of the utmost quality and safety. We apologize for the inconvenience and thank you for your trust and valuable cooperation.

Michael Bianco, Eng.
Service Engineering Director
