NHTSA #23V-879 (Non-School Bus)
#23V-846 (School Bus)**

Subject: High Voltage Junction Box Inverter Cable

This notice is sent to you in accordance with the requirements of the *National Traffic and Motor Vehicle Safety Act*.

Daimler Truck North America LLC (DTNA), on behalf of its wholly owned subsidiaries, Freightliner Custom Chassis Corporation (FCCC) and Thomas Built Buses (TBB), has decided that a defect, which relates to motor vehicle safety, exists in certain model years 2021-2025 FCCC MT50E chassis and TBB Saf-T-Liner C2 Jouley electric school/commercial buses, manufactured between December 11, 2019, and October 18, 2023. See below for additional detail on vehicle applicability:

Make	Model	Model Yr. Start	Model Yr. End	Prod. Start Date	Prod. End Date
FCC	MT50E	2023	2024	June 13, 2022	October 12, 2023
TBB	Saf-T-Liner C2	2021	2025	December 11, 2019	October 18, 2023

On the affected vehicles, fasteners at the joint connecting the high voltage inverter cable to the associated junction box hardware may not have been secured properly, which could lead to loss of drive power without prior warning, increasing the risk of a crash.

A Daimler Truck North America authorized service facility will repair the affected vehicles by inspecting and tightening the fasteners. The recall will take approximately one hour and will be performed **free of charge**.

Please contact an authorized Daimler Truck North America dealer to arrange to have the recall performed. To locate an authorized dealer, search online at <https://northamerica.daimlertruck.com/contact-us>. Scroll down to "Locate a Dealer" and select the appropriate brand.

You may also confirm your vehicle's involvement in this recall at the following URL:
