Subject: Compliance Recall 69GA - Driver Seat Side Airbag

Dear Audi Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Audi has decided that certain 2023-2024 model year Audi vehicles fail to conform to Federal Motor Vehicle Safety Standard No. 214, *Side Impact Protection*. Our records show that you are the owner of a vehicle affected by this action.

What is the issue?

The driver seat side airbag may have not been properly mounted into the seatback frame which could lead to the inflated airbag being out of its intended position. Because of this, the vehicles included in this recall may not fully comply with the requirements of an airbag test according to Federal Motor Vehicle Safety Standard No. 214, *Side Impact Protection*. In the event of a crash, the position of the inflated airbag may differ from that intended. As a result the performance of the airbag might not be as designed, increasing the risk of injury.

What will we do?

To correct this noncompliance, the installation of the driver seat side airbag into the seatback frame will be inspected your authorized Audi dealer and, if necessary, the side airbag will be reinstalled correctly. This work will take about an hour to complete and will be performed for you free of charge. Please keep in mind that your dealer may need additional time for the preparation of the work, as well as to accommodate their daily workshop schedule.

What should you do?

Please contact your authorized Audi dealer without delay to schedule this recall work. For your convenience, you can also visit www.audiusa.com and click on the "Find a Dealer" link to locate a dealer near you and schedule this service.

Lease vehicles and address changes
