**Why is your vehicle being recalled?**

The door strikers in these vehicles were not properly heat-treated to meet GM hardness specifications, making them susceptible to fracture. If a door striker fractures during a crash or while the vehicle is moving, the door may open unexpectedly, increasing the risk of injury.

**What will we do?**

Your GM dealer will replace all four side door strikers and attaching bolts. This service will be performed for you at no charge. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual service correction time of approximately 40 minutes.

**What should you do?**

You should contact your GM dealer to arrange a service appointment as soon as possible.

When scheduling your appointment, confirm with the dealer that they are an EV certified dealer.

**Do you have questions?**
