CAUTION: VEHICLE SERVICING PERFORMED BY UNTRAINED PERSONS COULD RESULT IN SERIOUS INJURY TO THOSE PERSONS OR TO OTHERS. 

Subaru Service Bulletins are intended for use by professional technicians ONLY. They are written to inform those technicians of conditions that may occur in some vehicles, or to provide information that could assist in the proper servicing of the vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do the job correctly and safely. If a condition is described, DO NOT assume that this Service Bulletin applies to your vehicle, or that your vehicle will have that condition.
Retailer Responsibility

Please be advised that it is a violation of Federal law for a dealer to deliver a new motor vehicle covered by a recall under a sale or lease until the defect is remedied. Therefore, any Authorized Subaru Retailer failing to perform the applicable service procedures to correct all affected vehicles in their inventory prior to the vehicle being placed in service may be subject to civil penalties of up to $22,423 per violation (i.e., for each vehicle), as provided in 49 CFR §578.6 and will also be in breach of the Subaru Dealer Agreement.

Any vehicles listed in any recall/campaign that are in retailer stock must be:

- Immediately identified
- Tagged or otherwise marked to prevent their delivery or use prior to repair
- Repaired in accordance with the repair procedures outlined in the Product Campaign Bulletin

Retailers are to promptly perform the applicable service procedures, to correct all affected vehicles in their inventory (used, demo & SSLP). Whenever a vehicle subject to this recall is taken into retailer inventory necessary steps should be taken to ensure the recall correction has been made before selling or releasing the vehicle.

Owner Notification

Subaru will notify affected vehicle owners by first class mail in May. Retailers will be notified when the owner notification has been scheduled.

PART INFORMATION:

The tires are to be ordered using the normal ordering process through the Subaru Tire Center.

</tr>
</tbody>
</table>

SERVICE PROCEDURE / INFORMATION:

STEP 1: Using a wax pen or tape, mark the position of ALL four wheels.

STEP 2: Replace ALL four tires following the Service Procedures supplied in the applicable Service Manual.

STEP 3: Using a unibit, drill bit, or hole saw, CAREFULLY drill one hole in the sidewall of ALL four tires above the DOT number. It is important to perform this step to confirm the tires cannot be re-used in any way. See the example images below.
STEP 4: CONFIRM ALL the wheel nuts are torqued in a star pattern to 120 Nm (12.2kgf-m, 88.5ft-lb).

IMPORTANT:

- The Tire Pressure Monitor System (TPMS) re-registration is NOT REQUIRED after tire replacement. The only exception to this is if a TPMS sensor requires replacement. In that case, follow the TPMS registration procedure supplied in the applicable Service Manual.
- Perform a road test when the repair is complete to confirm there are no TPMS or sound issues.

SERVICE PROGRAM IDENTIFICATION LABEL:
Type or print the necessary information on a Campaign Identification Label. The completed label should be attached to the vehicle’s upper radiator support. Additional labels are available through normal parts ordering channels. The part number is MSA6P1302, which comes as one sheet of 20 labels.

CLAIM REIMBURSEMENT AND ENTRY PROCEDURES:
Credit to perform this recall will be based on properly completed repair order information. Retailers may submit claims through Subarunet.com.

NOTES:
- Tire shipping costs and up to $20.00 dollars can be claimed for tire disposal in sublet.
- Part number SOA635009 is to be used for maximum of two wheel weights per wheel used.

IMPORTANT REMINDERS:
- SOA strongly discourages the printing and/or local storage of service information as previously released information and electronic publications may be updated at any time.
- Always check for any open recalls or campaigns anytime a vehicle is in for servicing.
- Always refer to STIS for the latest service information before performing any repairs.
