

Recall Bulletin 230516REV

RECALL BULLETIN: 230516REV	The purpose of this Recall Service Bulletin is to inform REV Recreation Group dealers of the need to inspect and replace the Lippert tow hitch receiver on certain model year 2020-2024 Fleetwood brand Bounder, Southwind and Holiday Rambler brand Vacationer models C, K, GL, and P. A list of affected motorhome serial numbers appear at the end of this Bulletin. CONDITION: On motorhomes affected by this recall campaign, the Lippert tow hitch receiver may become damaged when under stress by consumer added aftermarket appliances such as a drop hitch or by overloading of the RV. These related factors may increase leverage stresses on the hitch and/or cause the hitch to hit the pavement. A damaged tow hitch may cause the receiver portion of the hitch to separate from the hitch cross tube resulting in separation of the tow vehicle from the coach. DEALER CORRECTIVE ACTION: Follow the attached repair bulletin to inspect and replace the Lippert brand hitch that was used on vehicles built between Oct 2019 and May 2023. ATTENTION SERVICE, WARRANTY AND PARTS MANAGERS: All prior Authorization Approvals must go through REV RV Dealer Technical Support (800) 816-9825						
YEAR(S) AFFECTED: 2020-2024							
PRODUCT(S) AFFECTED: <u>Fleetwood Bounder</u> <u>Southwind</u> <u>Holiday Rambler Vacationer</u>							
MONTHS OF MANUFACTURE: Oct 24, 2019 - May 5, 2023							
MODEL(S) AFFECTED: C, K, GL, P							
SUBJECT: Tow hitch may become damaged under stress.	WARRANTY LABOR ALLOWANCE: Recall 230516REV Hitch (Prior Authorization & Photos are Required) <table><tr><td>Use Flat Rate Codes:</td><td>Time Allowed:</td></tr><tr><td>6313 11 Inspected/Not Involved in Recall</td><td>0.3 HR (No Replacement)</td></tr><tr><td>6313 12 Inspected/Defective/Replaced</td><td>1.5 HR (For population list if required)</td></tr></table> RECALL KIT REPLACEMENT PARTS: MOTORHOME SERIAL NUMBERS are REQUIRED for every HITCH ORDER (REV serial number is located near the driver's window) DEALERS CANNOT order hitches for their own stock parts inventory REPLACEMENT HITCH KITS must be ordered from revrvparts.com OR CALL REV Parts (800) 509-3417 (Not Lippert) Once a tech has validated the hitch is in the defective range, order a replacement: <u>Kit #10885526:</u> 1 Hitch – drop shipped from Lippert, Qty 8: Grade 8 (½-13x1.75) bolts, Qty 8: (½-13) nuts – shipped from REV RV	Use Flat Rate Codes:	Time Allowed:	6313 11 Inspected/Not Involved in Recall	0.3 HR (No Replacement)	6313 12 Inspected/Defective/Replaced	1.5 HR (For population list if required)
Use Flat Rate Codes:	Time Allowed:						
6313 11 Inspected/Not Involved in Recall	0.3 HR (No Replacement)						
6313 12 Inspected/Defective/Replaced	1.5 HR (For population list if required)						
ISSUED: June 2023							
** Lippert is not a resource for the administration of this campaign 2023 REV Recreation Group, Inc.							

This bulletin is supplied for technical information only and is not an authorization for repairs.

Federal law (section 154 of the national traffic and motor vehicle safety act of 1966) requires that: If you have received a notice of recall or failure to comply from REV Recreation Group or any component Manufacturer, you must repair or otherwise correct the defects on vehicles remaining in your inventory, according to the notification, before selling or leasing the vehicles. Any vehicle lessor receiving this recall notice must forward a copy of the notice to the lessee within ten days.

"It is impossible to know, evaluate and advise the service trade of all conceivable ways in which service might be done or of the possible hazardous consequences of each way. Accordingly, anyone who uses a service procedure or tool must first assure that neither personal safety nor vehicle safety will be jeopardized by the selected service methods."

PRE-REPAIR INSPECTION:

- Use industry safety precautions while performing recall. Be mindful of pinch points.
- Park the motorhome on a dry, level paved surface. Place the transmission into park and engage the parking brake.
- Turn off the ignition and remove the keys. Maintain control of the keys until all repairs are performed.
- Chock the wheels to prevent movement.
- Two people will be needed to support the hitch when removing and replacing.

VISUAL INSPECTION:

1. Once the motorhome is secure, perform the following inspection using the diagram/photos below to determine what style of hitch is on the motorhome. There are three possible scenarios and are only on Fleetwood Bouncer and Southwind, and on the Holiday Rambler Vacationer models C, K, GL, and P. **Select the appropriate scenario, and take pictures for the claim.**

Scenario 1:

Reese hitches were used on some model year 2020 motorhomes and will have a Reese brand sticker on the hitch (See Figure 1). If the sticker is unable to be identified, the other two other distinguishable ways to tell if it is a Reese hitch are:

1. The chain attachment loops are located at the back of the receiver tube and the frame cross member (See Figure 1A).
2. There is no top plate (See Figure 1A)

If a Reese hitch is found to be on the motorhome, **take a photo and submit a claim using flat rate code 6313 11 Inspected/Not Involved in Recall as this hitch does not apply to this recall.**

Figure 1

Figure 1A

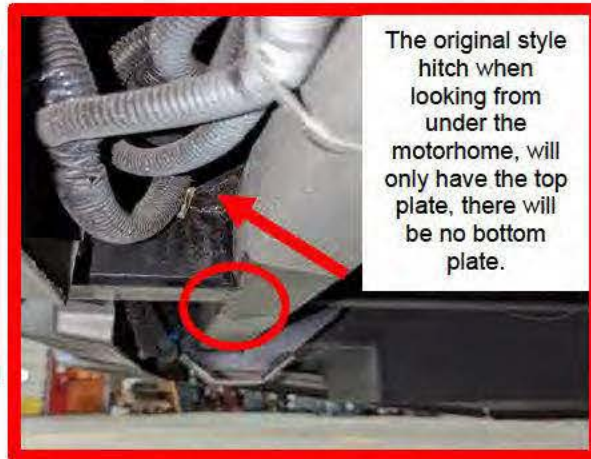

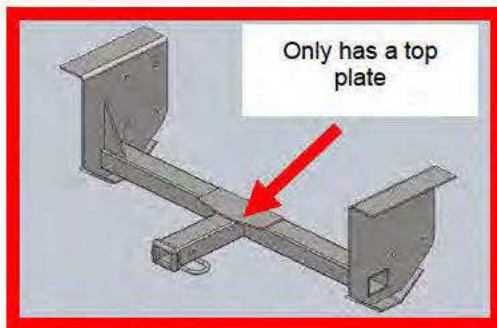

The chain attachment loops are located at the back of the receiver tube and the frame cross member, and there is no top plate.

Scenario 2: THE MOST LIKELY SCENARIO

The original hitch installed will only have the top plate (See Figure 2). If this style is found, the hitch is required to be replaced with a new style hitch. **Take a photo and submit a claim using flat rate code 6313 12 Inspected/Defective/Replaced. Order replacement kit 10885526 (Must have UIN/VIN) to order kit.**

Figure 2

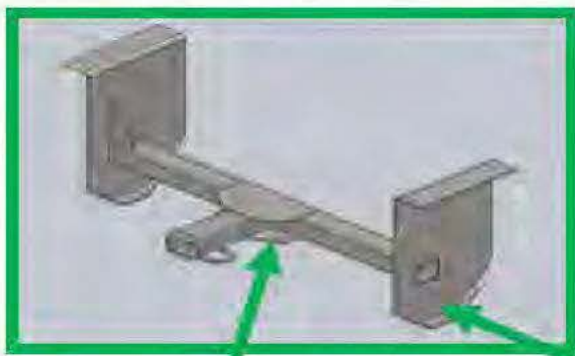

Scenario 3: THE LEAST LIKELY SCENARIO

The new style hitch will have a top and bottom plate on the crossmember (See Figure 3). The new style hitch was only installed on units being built beginning April 2023, but verification will still be required. If the hitch looks like this, it will **not** need to be replaced.

STOP: Take a photo and submit a claim using flat rate code 6313 11 Inspected/Not Involved in Recall as this hitch does not apply to this recall.

Figure 3

Key difference is the additional bottom plate, and the skid plates are lower.

The new style hitch will have a top and bottom plate.

REPAIR PROCEDURE:

2. Once the incorrect hitch has been verified, place stands or jack under the hitch only (not the motorhome) to support the weight of the hitch while the Huck rivets are being removed. Removal of the hitch will require two people.

THINK SAFETY AND USE APPROPRIATE PERSONAL PROTECTIVE EQUIPMENT TO AVOID INJURY. PLEASE USE CUT RESISTANT GLOVES, EAR PROTECTION, AND A FULL-FACE SHIELD. USE TWO PEOPLE TO SUPPORT THE WEIGHT OF THE HITCH.

3. The hitch is mounted with Huck rivets and cannot be removed with conventional hand tools. Use a Sawzall with a new good quality 9" metal blade to cut the collars and the Huck rivets on both sides of the hitch receiver (See Figure 4). Cut the collar and Huck rivet as close to the flat end of the flared collar as possible (See Figure 5) and remove them from the rail extensions. NOTE: Follow the specific cut line as seen in Figure 5.

Figure 4

Figure 5

4. Once all eight Huck rivets have been removed, carefully remove the tow hitch receiver from the rail extensions by lowering the support device with the assistance of a second person. **Once the hitch has been removed, tag the hitch defective, and destroy the hitch.**
5. With the assistance of a second person, place the new hitch in position and align with the original holes on the rail extensions. Use stands or a jack to keep the hitch in place.
6. Insert bolts into the holes (from the inside of the frame rail, outward) and thread the nuts on. Tighten all eight nuts so they are snug, and the hitch is held up by the bolts alone.
7. **Torque all eight bolts to 90 Ft-Lbs. of torque. It is critical that proper torque is verified.** Once the proper torque has been verified, add a paint marker witness mark to the bolt and nut.
8. Touch up the hitch with black paint if needed.
9. Remove the stands or jack.

WARRANTY LABOR ALLOWANCE:

Recall 230516REV Hitch (Prior Authorization & Photos are Required)

Use Flat Rate Codes:

6313 11 Inspected/Not Involved in Recall

6313 12 Inspected/Defective/Replaced

Time Allowed:

0.3 HR (No replacement)

1.5 HR (For population list if required)

RECALL KIT REPLACEMENT PARTS:

- **MOTORHOME SERIAL NUMBERS are REQUIRED for every HITCH ORDER. (REV serial number is located near the driver's window)**
- **Dealers CANNOT order hitches for their own stock parts inventory**
- **REPLACEMENT HITCH KITS must be ordered from revrvparts.com OR CALL REV Parts (800) 509-3417 (Not Lippert)**

Once a tech has validated the hitch is in the defective range, order a replacement:

Kit #10885526: 1 Hitch – Drop shipped from Lippert

Qty 8: Grade 8 (1/2 13X1.75) bolts, Qty 8: 1/2 – 13) nuts – Shipped from REV RV

TOOLS AND PPE

Sawzall with new 9" metal blade, with a spare blade on hand

NOTE: If a grinder is used, it is the dealer's responsibility to provide added protection for sparks.

Creeper

Jack stands or floor jack

3/4 Socket and torque wrench capable of 90 Ft Lbs.

Paint Marker

Black Spray Paint

Head protection

Cut resistant gloves

Safety glasses

Ear Protection

Full face shield

ALL APPROVALS, and CLAIM PAYMENTS must go through REV RV Technical Support at (800) 816-9825. PARTS must be ordered through REV RV Parts at revrvparts.com or (800) 509-3417.
