Safety Recall: 2023 Accord Fuel Pump Module Set/Assembly Replacement

AFFECTED VEHICLES

Year	Model	Trim Level	VIN Range
2023	Accord	EX	Check the iN VIN status for eligibility.

BACKGROUND

A single 2023 Accord unit may have received a **fuel pump assembly service part** with a defective impeller. Due to swelling of the fuel pump motor impeller, the fuel pump may seize and stop working. A defective impeller may cause the fuel pump to become inoperative, which could prevent an engine from functioning as intended. This limitation may cause a loss of motive power or a stall while driving increasing the risk of a crash or injury, creating a safety hazard. If this bulletin appears during an iN VIN status inquiry, the vehicle is subject to a safety recall.

CUSTOMER NOTIFICATION

The owner of the affected vehicle will be sent a notification of this campaign. They will be informed that due to a limited supply of parts (at this time) Honda is prioritizing the repair of customer vehicles experiencing symptoms related to this recall.

When adequate replacement parts become available, Honda will send a follow-up letter to the customer instructing them to schedule an appointment for the vehicle affected by this recall. If the customer experiences the known symptoms associated with this safety recall (see CORRECTIVE ACTION), they are instructed to contact their local Honda dealer for the repair.

For any questions or concerns customers may have, you may have them contact American Honda Customer Support & Campaign Center at **1-888-234-2138**.

CUSTOMER INFORMATION: The information in this bulletin is intended for use only by skilled technicians who have the proper tools, equipment, and training to correctly and safely maintain your vehicle. These procedures should not be attempted by “do-it-yourselfers,” and you should not assume this bulletin applies to your vehicle, or that your vehicle has the condition described. To determine whether this information applies, contact an authorized Honda automobile dealer.

CORRECTIVE ACTION

Replace the fuel pump module set.
