———— What is the problem? ————

The subject vehicles are equipped with an RPAS that could develop an internal electrical short due to high conductive liquid leaking into the RPAS. An electrical short within the RPAS increases the risk of fire.

Our records indicate that your vehicle is affected.

For more information about this critical recall including affected vehicles or frequently asked questions, you may view <u>Hyundai's official campaign</u> <u>page</u> or visit the <u>NHTSA website</u>.

If you require further assistance, including info on reimbursement or updating ownership, please visit the <u>Hyundai Consumer Assistance</u> Center or by calling the Hyundai Motor America Virtual Assistant at 1-855-371-9460.

To better assist you during your call please have the last 8 characters of your VIN ready to enter when prompted.
