Our records show that you are the owner of a vehicle affected by this action.

REASON FOR THIS RECALL

FSD Beta is an SAE Level 2 driver support feature that can provide steering and braking/acceleration support to the driver under certain operating limitations. When the feature is engaged, it could potentially infringe upon local traffic laws or customs while executing certain driving maneuvers in specific conditions, which could increase the risk of a collision if the driver does not intervene.

WHAT TESLA WILL DO

At no charge to you, Tesla will deploy an over-the-air ("OTA") firmware update to affected vehicles that will improve how FSD Beta negotiates certain driving maneuvers in specific conditions.

WHAT YOU SHOULD DO

At this time, there is no action you need to take. The firmware remedy is not yet available. When the remedy is available, it will be deployed OTA to your vehicle, and we will notify you.

If you believe that Tesla has failed or is unable to remedy this defect without charge or within a reasonable time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue SE, Washington, DC 20590, by calling 1-888-327-4236 (TTY: 1-800-424-9153), or by visiting www.safercar.gov.
