REASON FOR THIS RECALL

Certain trucks may not conform to Federal Motor Vehicle Safety Standard (FMVSS) 108 - If any required lamp or reflective device is obstructed by motor vehicle equipment,

the vehicle must be equipped with an additional lamp or device of the same type. Specifically, Navistar did not equip these vehicles with additional unobstructed back-up lamps.

RISK TO MOTOR VEHICLE SAFETY

Back-up lamps that do not conform to all the requirements of FMVSS 108 while in bobtail mode and in reverse with obstructed back-up lamps may increase the risk of a vehicle crash.

DEFECT REMEDY

A remedy has been determined. Parts have been ordered, will be available in late-April and performed free of charge. When parts become available, you will be notified of additional actions you should take.

ACTIONS YOU SHOULD TAKE

To minimize the potential risk of this noncompliance, the operator should exercise greater caution while in bobtail mode and in reverse. **Your back-up lamp may not be completely visible to someone behind you.**

If you are the lessor of this vehicle, please forward a copy of this notice to the lessee within ten days to comply with federal regulations.

If you do not own this vehicle, please fill out and return mail the enclosed card so that you will not be contacted again about this recall.

IF YOU NEED FURTHER ASSISTANCE

Navistar requests your prompt attention and patience regarding the correction of this defect and apologizes for any inconvenience this may cause you.
