This notice applies to your vehicle(s), see enclosed VIN list.

**August 2023
FL979
NHTSA #23V467
Interim Notice**

Subject: Freightliner eCascadia e-Axle Ring Gear

This notice is sent to you in accordance with the requirements of the *National Traffic and Motor Vehicle Safety Act*.

Daimler Truck North America LLC (DTNA), on behalf of its Freightliner Trucks Division, has decided that a defect, which relates to motor vehicle safety, exists in certain 2023-2024 Freightliner eCascadia vehicles manufactured between January 19, 2023, through April 13, 2023.

On the affected vehicles, the e-axle planetary gear set(s) may not be welded properly, which can cause the e-motor to detach from the final drive. This may result in an undetectable, sudden loss of drive power without the ability to restart the vehicle, which can increase the risk of a crash.

This is the first of two notices you will receive regarding this subject. This letter is to inform you of an upcoming Recall to correct the issue noted above. Daimler Truck is currently validating the final repair and securing replacement parts. **There is no action for you to take at this time.**

A second notice will inform you when the final, **free remedy** is available. **When you receive the second notice**, please contact your authorized Daimler Truck North America dealer to schedule the repair for your vehicle.

If you do not own the vehicle that corresponds to the identification number(s) which appears on the Recall Notification, please return the notification to the Warranty Campaigns Department with any information you can furnish that will assist us in locating the present owner. If you have leased this vehicle, Federal law requires that you forward this notice to the lessee within 10 days.
