### **WHY DOES MY VEHICLE NEED REPAIRS?**

Trailers equipped with Tire Pilot Plus – Electronic Regulator Control Unit Assembly tire pressure regulation system (TPRS) may experience unintended loss of pressure of all 8 tires while traveling at speeds higher than 45 mph. ### **WHAT WILL YOUR DEALER DO?**

SAF HOLLAND is still finalizing a remedy. In the interim your dealer will disable the TPP system, free of charge. The interim repair should take approximately .5 hours to complete. However, due to scheduling, your dealer may require your vehicle for longer. Your dealer should be able to provide a more accurate repair estimate. You will receive a second notice once the final remedy becomes available.

### **WHAT SHOULD YOU DO?**

Many of the affected trailers have already had the disabling service bulletin performed. You can verify this with the included service bulletin.
